

Kenneth D. Anderson

Kenneth D. Anderson has been a principal in the telecommunications and media industries since the early '80s. Through Anderson Pacific Capital, LLC (www.andersonpacific.com), he has formed investment funds that have owned assets in the cable television industry, local telephone exchanges, local cellular companies, regional fiber networks, towers, data centers and wireless spectrum licenses obtained through FCC auctions. He expanded into the media field in 2015 with an acquisition in the local advertising yellow pages business that, after a profitable divestment, led to investments in the out-of-home industry.
